DETAILED ACTION

Preliminary Remarks

- 1. PLEASE TAKE NOTICE that the examiner handling this application has changed. The new examiner is *Jerry O'Connor*. The Group Art Unit number is unchanged and is still *3627*.
- 2. This Office action responds to the amendment and arguments filed by applicant on June 5, 2006 in reply to the previous Office action, mailed March 1, 2006.
- 3. The amendment of claims 1 and 2, and the addition of claim 6, by applicant in the reply filed June 5, 2006, are hereby acknowledged.

Election/Restriction

- 4. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 1 and 6, drawn to a system for automated financial, business, or management practice comprising an arrangement for inventory management, classified in class 705, subclass 28.
 - II. Claims 2-5, drawn to a method of business or management comprising generic or non-electrical computing, classified in class 705, subclass 500.

Application: 10/771,090 Paper No. 20060808

Art Unit: 3627 Page 3

5. The inventions are distinct, each from the other because of the following reasons:

Invention II is related to Invention I as process and apparatus for its practice. The inventions are distinct if it can be shown that *either*: (1) the process as claimed can be practiced by another, materially different apparatus, or by hand, or (2) the apparatus as claimed can be used to practice another, materially different process. (MPEP § 806.05(e)). In this case, the apparatus as claimed can be used to practice another, materially different process, such as a process that creates an equipment asset data structure based solely on the legacy data alone, rather than also basing it on the goals and objectives of the enterprise.

- 6. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.
- 7. A telephone call was placed to Mr. Sean D. Solberg (Reg. No. 48,653), attorney for applicant, on August 8, 2006, to discuss an oral election to the above restriction requirement, but the call did not result in an election being made.
- 8. Applicant is advised that the reply to this requirement, to be complete, *must* include an election of the invention to be examined, even if the requirement be traversed (37 CFR 1.143).
